San Diego Gas & Electric Notification Of Request To Recover Costs Recorded In The Transmission Integrity Management Program Balancing Account A.25-02-012

Why am I receiving this notice?

On February 27, 2025, San Diego Gas & Electric (SDG&E®) filed an application (A.25-02-012) with the California Public Utilities Commission (CPUC) to recover costs recorded in the Transmission Integrity Management Program Balancing Account (Application). The Application seeks to recover a total revenue under-collection of \$7.4 million.

Why is SDG&E requesting this rate increase?

This Application will cover the implementation of the Transmission Integrity Management Program (TIMP), and recovery of related costs recorded in the TIMP Balancing Account (TIMPBA) from 2019-2023. TIMP is a comprehensive program that performs prescriptive assessments on natural gas transmission pipelines as required by federal regulations, including the new federal regulations that were enacted over the 2019-2023 timeframe.

The CPUC approved the TIMP with approximately \$84.5 million of authorized expenditures for the years 2019-2023. SDG&E is requesting recovery of \$7.4 million in under-collected revenue, for expenditures that were incurred above authorized levels for the period of August 1, 2023, through December 31, 2023.

(Continued inside)

How could this affect my monthly electric rates?

If SDG&E’s rate request is approved by the CPUC, the average residential monthly bill using 25 therms per month would increase by approximately \$0.02 or 0.03% per month over a 12-month period, or until the costs are recovered. The proposed average rates shown below are for 2026.

Bundled Rate Impact*				
Customer Classification (th = therm, dth = dekatherm)	Current Average Rates	Proposed Average Rates	% Increase	Rate Increase (in cents)
Residential ¢/th	273.070¢	273.159¢	0.0%	0.089¢
Commercial ¢/th	153.691¢	153.780¢	0.1%	0.089¢
Natural Gas Vehicles ¢/th	90.419¢	90.506¢	0.1%	0.088¢
Large Industrial (distribution level service) ¢/th	59.198¢	59.200¢	0.0%	0.002¢
Large Industrial (transmission level service) ¢/th	25.881¢	25.882¢	0.0%	0.001¢
Backbone Transmission Service ¢/dth/day**	73.303¢	74.160¢	1.2%	0.858¢
System Total ¢/th	112.539¢	112.542¢	0.0%	0.003¢

* Bundled Rates include Gas Core Procurement, Transportation and Public Purpose Program Surcharge (PPPS) for Core customers. Transportation and PPPS for Noncore customers,

** Backbone Transportation Service are rights that customers may purchase to transport natural gas over the backbone system to the SoCal Citygate. Core customers who purchase natural gas supplies from SDG&E have this charge included in the natural gas commodity rate.

How does the rest of this process work?

This Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SDG&E’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

CONTACT CPUC

Parties to the proceeding may review SDG&E’s application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

Please visit apps.cpuc.ca.gov/c/A2502012 to submit a comment about this proceeding on the CPUC Docket Card. Here you can also view documents and other public comments related to this proceeding.

Your participation by providing your thoughts on SDG&E’s request can help the CPUC make an informed decision.

If you have questions about CPUC processes, you may contact the CPUC’s Public Advisor’s Office at:
