

JUNE 2025

Did you know?

Summer pricing took effect on June 1. So, as temperatures rise, your energy use may too. Here are some things to be aware of about your energy use that may help you manage your bill:

Water heating accounts for 30% of your home's total energy use*

The longer you run hot water, the higher your energy use and bills. To save, try reducing how much hot water you use and lower your water heater temperature a few degrees.

You have "Energy Vampires" in your house

Appliances can continue to drain power from electrical outlets, even when turned off or idle. According to the U.S. Department of Energy, this can cost the average household several hundred dollars annually. Unplug electronics when not in use. Using a power strip with an on/off switch can help.

You can get the recipe to energy savings

Using the oven during the summer can add heat to your home, requiring more energy to cool your home. Try to avoid using the oven and instead use small appliances such as an air fryer, toaster oven or slow cooker. They use less energy and won't add much heat to your home. Or try no-heat meals, such as salads, wraps or subs. You can even fire up the grill outdoors and enjoy the weather.

For more energy savings tips and resources to help you manage your energy use and bill, please visit sdge.com/summer.

MONTHLY SEASONAL TIP:

Look for air leaks: Weatherstrip and caulk drafty doors and windows to keep cool air in and save up to 20% on cooling costs*.

Request this alert if heat is harmful to your health

If extreme heat would be harmful to the health of anyone living in your home and a moderate indoor temperature is a must, be sure to enroll in SDG&E's **Temperature Sensitive Program**. With this free service, you'll receive advance notice, if possible, of power outages. An automated phone call will alert you to prepare for a temporary loss of air conditioning.

To sign up for the Temperature Sensitive Program, download the program application at sdge.com/TempSensitive.

If you participate in SDG&E's **Medical Baseline Program**, then you're already on the call list for outage notices and do not need to enroll in the Temperature Sensitive Program.

SDG&E is cutting back

Each year, our Vegetation Management team partners with professional arborists and contractors to inspect nearly half a million trees and brush near power lines.

Our annual tree inspection includes trimming and removal to maintain clearance for overhead power lines, underground equipment, transmission towers and power poles. This helps reduce the risk of fire, prevent power outages and save lives by removing electric shock hazards.

We also perform quality assurance audits of the work to make sure we've done everything possible to help keep you and your family safe. As always, your safety is our top priority.

We don't stop there; trees near power lines can be a safety hazard. That's one reason we sponsor tree-planting events at schools. We share our expertise through community education and outreach so you can plant the right tree in the right place. Learn more at sdge.com/TreeSafety.

Moving? Transfer your service online.

Start, transfer or stop services online at MyEnergyCenter.com or the mobile app.

It's convenient and only takes a few minutes - no calls, no waiting.

- Online scheduling shows earliest available dates
- If plans change, update your request online

Plus, there are more online services to make your move easy.

- Download Letters of Residency or Credit History
- Get help with other services like phone, internet and TV

Visit our moving center at sdge.com/move.

Learn more about the My Energy Center app at sdge.com/MobileApp or download the app on the App Store® or Google Play™.

Need help with your energy bill?

You may qualify for a bill discount. Assistance programs help lower your monthly energy bill while keeping your home comfortable.

California Alternate Rates for Energy (CARE)

Program: Save 30% or more every month on your bill. Find out if you qualify at sdge.com/CARE.

Family Electric Rate Assistance (FERA)

Program: If you don't qualify for CARE, you may qualify for FERA. You could receive an 18% discount on your electricity bill. Visit sdge.com/FERA to learn more.

The Low-Income Home Energy Assistance Program (LIHEAP) offers eligible customers up to \$1,000 in financial assistance towards your energy bill. Learn more at sdge.com/LIHEAP.

Online applications are easy, fast and convenient. To learn more, visit sdge.com/Assistance.

¿Necesita ayuda con su factura de energía?

Usted puede calificar para un descuento en su factura. Los programas de asistencia de SDG&E ayudan a reducir su factura mensual de energía mientras mantiene su hogar cómodo.

Programa de Tarifas Alternativas de Energía de California (CARE, por sus siglas en inglés): Ahorre un 30% o más cada mes en su factura. Averigüe si califica en sdge.com/CARE.

Programa de Asistencia de Tarifa Eléctrica Familiar (FERA, por sus siglas en inglés): Si no califica para CARE, puede calificar para FERA. Podría recibir un 18% descuento en su factura de electricidad. Visite sdge.com/FERA para obtener más información.

El Programa de Asistencia de Energía para Hogares de Bajos Ingresos (LIHEAP) ofrece clientes elegibles hasta \$1,000 en asistencia financiera para su factura de energía. Obtenga más información en sdge.com/LIHEAP.

Las aplicaciones en línea son fáciles, rápidas y convenientes. Para obtener más información, visite sdge.com/assistance.

Download the My Energy Center app

Easily track your energy by downloading the mobile app. Self-service features and navigation deliver a seamless experience to help you stay in control of your energy use and costs. For more info, visit sdge.com/MobileApp.

Proposition 65 warning

SDG&E is a regulated public utility that provides energy service to 3.7 million people through 1.49 million electric meters and 905,000 natural gas meters in San Diego and southern Orange counties. Our service area spans 4,100 square miles. For a map of our service area, go to sdge.com/about-us.

Natural gas and treated wood utility poles are used throughout our service area. In accordance with Proposition 65, the following warnings are provided:

Natural gas combustion

WARNING: Entering this area can expose you to chemicals including formaldehyde, which is known to the State of California to cause cancer, and carbon monoxide, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65warnings.ca.gov.

Treated wood utility poles

WARNING: Entering this area can expose you to chemicals including pentachlorophenol, which is known to the State of California to cause cancer. For more information go to www.P65warnings.ca.gov.

Advertencia de la Proposición 65

SDG&E es una empresa de servicios públicos regulada que ofrece servicio de energía a 3.7 millones de personas a través de 1.49 millones de medidores eléctricos y 905,000 medidores de gas natural en los condados de San Diego y sur de Orange. Nuestra área de servicio abarca 4,100 millas cuadradas. Para ver un mapa de nuestra área de servicio visite a sdge.com/about-us.

En toda nuestra área de servicio se utilizan gas natural y postes de madera tratados para servicios públicos. De conformidad con la Proposición 65, se proporcionan las siguientes advertencias:

Combustión del gas natural

ADVERTENCIA: Entrar a esta área puede exponerle a sustancias químicas, entre las que se incluyen formaldehído, conocido por el estado de California como causante de cáncer, y monóxido de carbono, conocido por el estado de California como causante de defectos congénitos u otros daños reproductivos. Para obtener más información, visite a www.P65warnings.ca.gov.

Postes de madera tratados para servicios públicos

ADVERTENCIA: Entrar a esta área puede exponerle a sustancias químicas, entre las que se incluye pentaclorofenol, conocido por el estado de California como causante de cáncer. Para obtener más información, visite a www.P65warnings.ca.gov.
