**REPORT OF SAN DIEGO GAS & ELECTRIC COMPANY ON INTERRUPTIBLE  
LOAD AND DEMAND RESPONSE PROGRAMS FOR FEBRUARY 2025**

Dear Energy Division:

In accordance with Decision 09-08-027, Ordering Paragraph 39, attached to this email please find San Diego Gas & Electric Company's ("SDG&E") monthly report referenced above. This report is being served on the most recent service list in Application 08-06-001, 08-06-002 and 08-06-003, 11-03-001, 11-03-002, 11-03-003, and R.13-09-011, and has been made available on SDG&E's website. The URL for the website is:

<https://www.sdge.com/regulatory-filing/711/amended-2009-2011-sdges-demand-response-application>

Additionally, SDG&E has made available twelve revised monthly reports for 2022 that inadvertently did not include data related to the number of service accounts in the Capacity Bidding Program (CBP). Inclusion of the missing data resulted in updates in the Ex Ante and Ex post estimated MW totals associated with the CBP.

If you have any questions regarding this information, please contact me.

Kind Regards,

Jacqueline Sanchez

Notes:

- <sup>1</sup> The Ex-Ante average per customer estimates are based on Program Year 2020 SDG&E DR Load Impacts report filed April 1st, 2021 for the months of January thru March. The Ex-Ante average per customer estimates are based on Program Year 2021 SDG&E DR Load Impacts report filed April 1st, 2021 for the months of April thru December.  
The Ex-Ante average per customer estimates for CBP Day Ahead and Day Of include the elect and non-elect option
- <sup>2</sup> The Ex-Post average per customer estimates are based on Program Year 2020 SDG&E DR Load Impacts report filed April 1st, 2021 for the months of January thru March. The Ex-Post average per customer estimates are based on Program Year 2021 SDG&E DR Load Impacts report filed April 1st, 2021 for the months of April thru December for CBP Non-elect option, BIP, AC Saver Day Of (Commercial and Residential), and AC Saver Day Ahead Residential.  
The Ex-post per customer are based on Program Year 2021 ex-ante per customer for the year of 2021 for the programs AC Saver Day Ahead Commercial, CPP, TOU-DR-P Voluntary Residential, TOU-A-P Small Commercial CPP, TOU-PA-P Aggricultural and CBP Elect Option due to SDG&E did not trigger these programs in 2021.  
The Ex-post average per customer estimates for CBP Day Ahead and Day Of include the elect and non-elect option
- <sup>3</sup> On March 27, 2020 SDG&E filed Advice Letter 3522-E (Tier 3) proposed to close the Armed Forces Pilot. SDG&E is awaiting a Decision.
- <sup>4</sup> On March 27, 2020 SDG&E filed Advice Letter 3522-E (Tier 3) proposed to close the Over Generation Pilot, SDG&E is awaiting a Decision. The Over Generation Pilot close on December 31, 2020.
- The reduction in the number of customers on AC Saver Day-Ahead Commercial in March is due to the un-enrollment of customer with thermostat that had been offline for more then 18 months.
  - Capacity Bidding Program reports the number of nominations not enrollments.
  - Count of Service Accounts reported for TOU-PA-P Agricultural, TOU-A-P Small Commercial and TOU-DR-P Voluntary Residential for April 2021 includes accounts enrolled through May 13, 2021 due to Envision cutover data validation activities.
  - The reduction in the number of customer on AC Saver day-ahead residential in June, is due to approximately 2,500 customers with Google-Nest devices did not agree to the new Google terms and conditions.

SAN DIEGO GAS & ELECTRIC COMPANY REPORT ON INTERRUPTIBLE LOAD AND DEMAND RESPONSE PROGRAMS  
Jul-22

| Average Ex Ante Load Impact kW / Customer |         |          |        |       |       |       |       |        |           |         |          |          |                                 | Eligibility Criteria (Refer to tariff for specifics)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| BIP - (20 minute option)                  | 147.94  | 123.36   | 154.18 | 55.07 | 44.95 | 86.18 | 66.92 | 73.11  | 137.69    | 56.52   | 52.19    | 30.66    | 5,326                           | Direct Participation Customers: Any non-residential customer who can commit to reducing at least 15% of their Monthly Average Peak Demand, may participate in Schedule BIP directly with the Utility. Aggregator Customers: Any non-residential customer may participate in Schedule BIP through an aggregator. This tariff is available to bundled, Direct Access (DA), and Community Choice Aggregation (CCA) customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| CPP-D (Large and Medium customers)        | 0.14    | 0.14     | 0.00   | 0.39  | 0.42  | 0.43  | 0.52  | 0.58   | 0.61      | 0.48    | 0.36     | 0.31     | 24,298                          | This Schedule is the default commodity rate for customers currently receiving bundled utility service on a commercial/industrial rate schedule for customers whose Maximum Monthly Demand is equal to or exceeds or is expected to equal or exceed 20 kW for twelve consecutive months. This Schedule is not applicable to Direct Access (DA) or Community Choice Aggregation (CCA) customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| AC Saver Day-Ahead Residential            | 0.00    | 0.00     | 0.00   | 0.04  | 0.08  | 0.05  | 0.14  | 0.18   | 0.22      | 0.14    | 0.01     | 0.00     | 590,220                         | AC Saver Day Ahead (thermostats) is a voluntary demand response program available to all residential customers with air conditioner (AC) units installed at their premise with SDG&E approved technology capable of curtailing the customers' AC unit. Residential customers with Net Energy Metering are eligible for this schedule. This schedule is available to customers receiving Bundled Utility Service or, Direct Access (DA) service and billed by the Utility. Service on this schedule must be taken in combination with the customer's otherwise applicable rate schedule. Note: AC Saver Day Of we used 54% based on 2019 California Residential Appliance Saturation Survey (RASS) report.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| TOU-DR-P Voluntary Residential            | 0.04    | 0.03     | 0.04   | 0.03  | 0.03  | 0.11  | 0.13  | 0.15   | 0.16      | 0.14    | 0.12     | 0.13     | 1,292,629                       | This optional tariff provides residential customers with the opportunity to manage their electric costs by either reducing load during high cost pricing periods defined as a Reduce Your Use (RYU) Event Day, or shifting load from high cost pricing periods to lower cost pricing periods. This Schedule is not applicable to commercial customers. This Schedule is not applicable to Direct Access (DA), Transitional Bundled Service (TBS) or Community Choice Aggregation (CCA) customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| TOU-A-P Small Commercial                  | 0.01    | 0.01     | 0.00   | 0.00  | 0.00  | 0.00  | 0.00  | 0.00   | 0.01      | 0.00    | 0.00     | 0.00     | 120,672                         | This tariff provides commercial customers with the opportunity to manage their electric costs by either reducing load during high cost pricing periods defined as a Reduce Your Use (RYU) Event Day, or shifting load from high cost pricing periods to lower cost pricing periods. Except as set forth below, this Schedule is the default commodity rate for customers currently receiving bundled utility service on a small non-residential rate schedule; or a medium/large non-residential rate schedule with a Maximum Monthly Demand below 20 kW for three consecutive months. This Schedule is available to general service including lighting, appliances, heating, and power, or any combination thereof, including common use and whose facility is separately metered. In order for this Schedule to take effect, the customer must have a smart meter installed, tested, and verified according to Utility procedures. This Schedule is not applicable to any customer whose Maximum Monthly Demand equals, exceeds, or is expected to equal or exceed 20 kW for 12 consecutive months. This Schedule is available to customers with the Utility Distribution Company (UDC) service of Schedule TOU-A, TOU-A-2, and/or TOU-A-3. This Schedule is optionally available to Expanded California Alternate Rates for Energy (CARE) customers. This Schedule is not applicable to residential customers, except for those three-phase residential customers taking service on this schedule as of April 12, 2007 who may remain on this Schedule while service continues in their name at the same service address. Those three-phase residential customers remaining on this Schedule who choose to switch to a residential rate schedule may not return to this Schedule. This Schedule is not applicable to Direct Access (DA), Transitional Bundled Service (TBS) or Community Choice Aggregation (CCA) customers. |
| TOU-PA-P Agricultural                     | 0.01    | 0.01     | 0.01   | 0.13  | 0.18  | 0.17  | 0.29  | 0.17   | -0.09     | 0.15    | 0.06     | 0.04     | 2,822                           | This Schedule is the standard Schedule for customers whose monthly maximum demand does not exceed 20kW for no more than 3 out of 12 consecutive months for general power service utilized to pump water, or in the production of agricultural products including feed choppers, milking machines, heaters for incubators, brooders, poultry house and flower production lighting, but excluding power service used for the processing of agricultural products, general or protective lighting, or domestic household uses. This schedule is available to agricultural and water pumping customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| BIP - (20 minute option)                                                                             | 106.00                                    | 106.00   | 106.00 | 65.94 | 65.94 | 65.94 | 65.94 | 65.94  | 65.94     | 65.94   | 65.94    | 65.94    | 5,326     | Direct Participation Customers: Any non-residential customer who can commit to reducing at least 15% of their Monthly Average Peak Demand, may participate in Schedule BIP directly with the Utility. Aggregator Customers: Any non-residential customer may participate in Schedule BIP through an aggregator. This tariff is available to bundled, Direct Access (DA), and Community Choice Aggregation (CCA) customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                      |
| CPP-D (Large and Medium customers)                                                                   | 0.48                                      | 0.48     | 0.48   | 0.03  | 0.03  | 0.03  | 0.03  | 0.03   | 0.03      | 0.03    | 0.03     | 0.03     | 24,298    | This Schedule is the default commodity rate for customers currently receiving bundled utility service on a commercial/industrial rate schedule for customers whose Maximum Monthly Demand is equal to or exceeds or is expected to equal or exceed 20 kW for twelve consecutive months. This Schedule is not applicable to Direct Access (DA) or Community Choice Aggregation (CCA) customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                      |
| AC Saver Day-Ahead Residential                                                                       | 0.30                                      | 0.30     | 0.30   | 0.41  | 0.41  | 0.41  | 0.41  | 0.41   | 0.41      | 0.41    | 0.41     | 0.41     | 590,220   | AC Saver Day Ahead (thermostats) is a voluntary demand response program available to all residential customers with air conditioner (AC) units installed at their premise with SDG&E approved technology capable of curtailing the customers' AC unit. Residential customers with Net Energy Metering are eligible for this schedule. This schedule is available to customers receiving Bundled Utility Service or, Direct Access (DA) service and billed by the Utility. Service on this schedule must be taken in combination with the customer's otherwise applicable rate schedule. Note: AC Saver Day Of we used 54% based on 2019 California Residential Appliance Saturation Survey (RASS) report.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                      |

This Schedule is not applicable to commercial customers. This Schedule is not applicable to Direct Access (DA), Transitional Bundled Service (TBS) or Community Choice Aggregation (CCA) customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                      |
| TOU-A-P Small Commercial                                                                             | 0.05                                      | 0.05     | 0.05   | 0.00  | 0.00  | 0.00  | 0.00  | 0.00   | 0.00      | 0.00    | 0.00     | 0.00     | 120,672   | This tariff provides commercial customers with the opportunity to manage their electric costs by either reducing load during high cost pricing periods defined as a Reduce Your Use (RYU) Event Day, or shifting load from high cost pricing periods to lower cost pricing periods. Except as set forth below, this Schedule is the default commodity rate for customers currently receiving bundled utility service on a small non-residential rate schedule; or a medium/large non-residential rate schedule with a Maximum Monthly Demand below 20 kW for three consecutive months. This Schedule is available to general service including lighting, appliances, heating, and power, or any combination thereof, including common use and whose facility is separately metered. In order for this Schedule to take effect, the customer must have a smart meter installed, tested, and verified according to Utility procedures. This Schedule is not applicable to any customer whose Maximum Monthly Demand equals, exceeds, or is expected to equal or exceed 20 kW for 12 consecutive months. This Schedule is available to customers with the Utility Distribution Company (UDC) service of Schedule TOU-A, TOU-A-2, and/or TOU-A-3. This Schedule is optionally available to Expanded California Alternate Rates for Energy (CARE) customers. This Schedule is not applicable to residential customers, except for those three-phase residential customers taking service on this schedule as of April 12, 2007 who may remain on this Schedule while service continues in their name at the same service address. Those three-phase residential customers remaining on this Schedule who choose to switch to a residential rate schedule may not return to this Schedule. This Schedule is not applicable to Direct Access (DA), Transitional Bundled Service (TBS) or Community Choice Aggregation (CCA) customers. |                                                      |
| TOU-PA-P Agricultural                                                                                | 0.47                                      | 0.47     | 0.47   | 0.17  | 0.17  | 0.17  | 0.17  | 0.17   | 0.17      | 0.17    | 0.17     | 0.17     | 2,822     | This Schedule is the standard Schedule for customers whose monthly maximum demand does not exceed 20kW for no more than 3 out of 12 consecutive months for general power service utilized to pump water, or in the production of agricultural products including feed choppers, milking machines, heaters for incubators, brooders, poultry house and flower production lighting, but excluding power service used for the processing of agricultural products, general or protective lighting, or domestic household uses. This schedule is available to agricultural and water pumping customers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                      |

**Notes:**

- The Ex-Post average per customer estimates are based on Program Year 2020 SDG&E DR Load Impacts report filed April 1st, 2021 for the months of January thru March. The Ex-Post average per customer estimates are based on Program Year 2021 SDG&E DR Load Impacts report filed April 1st, 2021 for the months of April thru December for CBP Non-elect option, BIP, AC Saver Day Of (Commercial and Residential), and AC Saver Day Ahead Residential.
- The Ex-post per customer are based on Program Year 2021 ex-ante per customer for the year of 2021 for the programs AC Saver Day Ahead Commercial, CPP, TOU-
- The Ex-post average per customer estimates for CBP Day Ahead and Day Of include the elect and non-elect option
- CPP-D, TOU-DR-P (Voluntary Residential) and TOU-A-P (Small Commercial) include Technology Deployment (TD).
- Estimated Average Ex-Post Load Impact kW / Customer = Average kW / Customer service account over all actual event hours for the preceding year if events occurred.

**SAN DIEGO GAS & ELECTRIC COMPANY REPORT ON INTERRUPTIBLE LOAD AND DEMAND RESPONSE PROGRAMS**  
**EVENT SUMMARY**  
07/01/22

[illegible]

**Notes:**

<sup>1</sup> If the MW Load Reduction is 0.00, there was no actual load reduction. If the MW Load Reduction is negative, there was an increase of load during the event hours. If there is nothing there, there were no events.

<sup>2</sup> Program Total Hours (Annual) is cumulative.

Notes:

<sup>1</sup> SDG&E's prior reports did not include bill credits for January 2022 through June 2022 due to software reprogramming issues. Those issues have been resolved and this report reflects the correct expenditures to date.

<sup>2</sup> Negative amount in January is due to an accrual reversal and true-up of December actual program expenditures.

<sup>3</sup> Negative amount in March is primarily due to the correction of prior period labor costs.

<sup>4</sup> Program Cycle to Date column "O" has been revised to include December 2021 Bill Credits.

<sup>5</sup> Negative amount in July is due to the reversal of June program expense accruals. These program expenditures were not accrued in July but will be reaccrued or paid in August.

Notes:

- <sup>1</sup> SDG&E's prior reports did not include bill credits for January 2022 through June 2022 due to software reprogramming issues. Those issues have been resolved and this report reflects the correct expenditures to date.
- <sup>2</sup> Negative amount in January is due to an accrual reversal and true-up of actual program expenditures.
- <sup>3</sup> Negative amounts in February and May are due to accrual reversals and true-up of actual program expenditures.
- <sup>4</sup> February credit is related to Contractual Agreement Discount on Timely Payments.
- <sup>5</sup> Negative amount in March is primarily due to the correction of prior period labor costs.
- <sup>6</sup> Negative amount in April is due to an accrual reversal and true-up of actual program expenditures.
- <sup>7</sup> Negative amount in May is due to the reclassification of expense to pre-paid in order to amortize the expense over the periods in which they are incurred.
- <sup>8</sup> Negative amount in July is due to the reversal of June program expense accruals. These program expenditures were not accrued in July but will be reaccrued or paid in August.

NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.

**Notes:**

<sup>1</sup> Rule 32 click-through was approved in Decision 17-06-005.  
<sup>2</sup> Rule 32 Operations was approved in AL 3191-E.  
<sup>3</sup> Rule 32 CISR Enhancement was approved in AL 3136-E.  
<sup>4</sup> Negative amount in March is primarily due to the correction of prior period labor costs.

**NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.**

Notes:  
Flex Alert was approved in D. 21.03.056 and modified by D.21.12.015.  
<sup>1</sup> Negative amount in July is due to the reversal of June program expense accruals. These program expenditures were not accrued in July but will be reaccrued or paid in August.

NOTE: Any required corrections/adjustments are reported herein and supersede results reported in prior months and may reflect YTD adjustments.
